Great Adventure

Destination: Iguazú

Description

This trip combines the wonders of the jungle and the waterfalls.

Departing from the Operative Center or from the Visitors' Center, you shall enter the jungle by the Yacaratiá trail in trucks specially designed for this environment. Bilingual guides (Spanish and English) will show the natural and cultural resources.

This 5 kms long stretch ends at Puerto Macuco. At its dock, visitors shall board on the boats that shall be sailing in the Lower Iguazu River for as long as 6 kms, heading towards the waterfalls area, enjoying plentiful rapids.

Upon reaching the Three Musketeers Fall, visitors shall be able to see the falls of both the Argentinian and Brazilian sides crowned by the view of the Garganta del Diablo (Devil's Throat). Afterwards, the most exciting point comes when facing the incomparable San Martín waterfall, the second in dimension and the biggest any boat may face.

At the end of the trip, you shall descend from the boat on the dock located in front of the San Martín Island, where visitors may continue enjoying the landscape joining the runways system of the Lower Circuit.

This excursion can also be made in the opposite direction: from the San Martín dock to the Visitors' Center.
